## EDUCATION

Howard University: College of Engineering and Architecture Washington, D.C. 2026  
BS Computer Science

## TECHNICAL SKILLS

Languages: Python, Java, C, C++, Swift, | JavaScript, React.js, HTML, CSS | PostgreSQL, SQLite  
Certified in Microsoft Office: Word, Excel, and PowerPoint

## INTERSHIPS

Dewberry | Resilience Solutions | Web Dev/Test Engineer Intern | Fairfax, VA Summer 2024

- Built a web tool for Benefit Cost Analysis on natural hazard mitigation strategies. Tested beta releases of flood forecasting software.

Alabama Power Company | Power Delivery Technology Intern | Birmingham, AL Summer 2023

- Collaborated with Cybersecurity & IT team for corporate-wide RSA Rollout Project. Sorted data to improve performance of Fault Isolation and Service Restoration (FISR) system.

Bitmari | Startup Intern | Harare, Zimbabwe Summer 2023

- Successfully sorted and validated 100% of user data for ILoveBlackPeople Safe Places mobile app. Worked on updates for the ILoveBlackPeople Safe Places mobile app and Greenbook API.

Ed Farm | Apple | Summer Learning Intern | Birmingham, AL Summer 2022

- Taught Swift Code at Bush Hills Steam Academy and South Hampton Middle School for Apple x Ed Farm Summer Enrichment.

Apple x Ed Farm | Project Development Intern | Birmingham, AL Summer 2021

- Performed Quality Assurance with the Product development team in preparation for the launch of digital teaching tool Ed Farm Learn. *Launched December 2021.*

## PROJECTS

Small Business Chatbot Assistant | Howard University | AWS Spring 2025

- Built a music analysis tool using sentiment analysis and vector similarity to sort and categorize songs by popularity and lyric content.

Music Data Analysis Project | Howard University | Natural Language Processing Spring 2025

- Built a music analysis tool using sentiment analysis and natural language processing to sort and categorize songs by popularity and lyric content.

National Geospace-Intelligence Agency Research Project | Howard University | NGA Spring 2023

- Built a python program in collaboration with the NGA to simulate nuclear effects on biodiversity.

## ACHIEVEMENTS

Howard University Alternative Spring Break | Milwaukee, WI Spring 2024

- Completed youth empowerment and gun violence prevention through a week of community service events at several elementary, middle, and high schools across Milwaukee.

Bison Bytes Hackathon | Howard University College of Engineering and Architecture Spring 2024

- Built and pitched a full stack application in 24 hrs. Used AI and large language model to assess patient and doctor interactions to improve quality of healthcare and reduce chances of malpractice.

Cyberthon Pensacola Fall 2018

- Team placed 1<sup>st</sup> out of the high school teams participating in the cybersecurity training and threat detection exercise for college and high school students.

## LEADERSHIP EXPERIENCE

Howard University | Volunteer | Bison Bytes Hackathon 2025

Howard University | Member | IEEE 2025-present

Howard University | Engineering Mentor | College of Engineering and Architecture 2023-present

Howard University | Member | NSBE 2021-present
